

145/242 PA Applications, Operations, and Maintenance Fundamentals Training Level 3 Field Service Engineer Training

DTB TRAINING CENTER GREENSBURG, PA– COURSE DESCRIPTION

Hitachi Energy is pleased to offer the following three (3) day training course consisting of classroom and hands-on instruction in Hitachi Energy's Greensburg, PA facility. The course is aimed to provide a general understanding of operations and maintenance of 145 / 242 PA power circuit breakers. During the classroom portion, experienced instructors will share their knowledge and expertise through interactive, engaging classroom instruction. To add further understanding, each main category of instruction will be followed by hands-on activity where students can interact with the breaker first-hand.
